

## EXPLORING YOUR SPIRITUAL LANGUAGE

1. Each partner, separately, places each word in the table (you may add to them) either **in the circle**, if they are in your spiritual vocabulary, or **outside of the circle**, if they are not (for whatever reason). You don't have to like a word to place it inside!
2. Then together, compare your results. What is a vocabulary that you share? Do you have a common understanding of these words? What words that are inside for your partner might you come to appreciate and make your own? What words that are outside might you work on together?
